A fun day out on a run through the hills stopping for lunch in Round Top at a quaint restaurant that we have not visited previously. Followed by a short drive to a local winery for those that are interested. We go rain, hail or shine, but of course it never rains on an SJCC road trip!

For those who wish to travel to the winery after lunch the winery charges \$10 for 6 tastings, which can be shared between two people, i.e. 3 tastings each or you can just skip the tastings and go for a glass like me!

Let me know if you have any questions.
