

**Oldest Corvette Club in Texas  
Third Oldest Corvette Club in the World!**

San Jacinto Corvette Club (SJCC) was initially formed for the purpose of gaining information on exchanging of ideas, hosting and sponsoring Corvette oriented activities and events for the mutual enjoyment of ***America's Sport Car, The Chevrolet Corvette!***

SJCC was formed in 1957 with the first meeting consisting of a small group meeting at a restaurant with about 20 members. SJCC was even in the space program during this period and performed some testing for NASA with the idea of an ice-cooled suit (looked like long johns) for SCCA racers to use. It had a circulating water system that pumped cold water through it with a system to monitor the racer's vital sign. This turned out to be the forerunner of some of the clothes used by the astronauts today.

By the 1960s, the Club activity calendar was filled with rallies, autocrosses and parties. Today the calendar lists many events ranging from car shows, parades, drag racing, autocrosses and road trips, and social events.

Each year a number of club events help support local and national charities such as Ronald McDonald, Big Brother/Sister, Houston SPCA and Houston 100 club to name a few. Our major charity today is Kidz Harbor, a children's home located in Liverpool TX just south of Alvin. Our Kemah Car Show benefits this charity.

Each month members receive ***The Grand Sport*** newsletter telling us where we've been, where we're going, the fun we're having along the way!

## San Jacinto Corvette Club

[www.sanjacintoncorvetteclub.org](http://www.sanjacintoncorvetteclub.org)

Check our web site for calendar of events, meeting information and location directions. Our meetings are the first Friday of each month. Socializing begins around 7 PM and meeting begins at 8 PM. Afterwards many will go have a late dinner and continue socializing.

### Weekly Events

Participation in local events

Impromptu gatherings at dealers, quick road trips, or gathering for a meal. Announcements sent out as these occur.
